

**Half Yearly Compliance Report
2025
01 Jun(01 Oct - 31 Mar)**

Acknowledgement

Proposal Name	Development of complete Master Plan of Vizhinjam International Deepwater Multipurpose Seaport: Phase-II and III components				
Name of Entity / Corporate Office	Vizhinjam International Seaport Limited				
Village(s)	KOTTUKAL				
District	THIRUVANANTHAPURAM				
Proposal No.	IA/KL/INFRA1/517128/2025	Category	INFRA-1		
Plot / Survey / Khasra No.	N/A	Sub-District	Neyyattinkara		
State	KERALA	Entity's PAN	*****EQUIRED		
MoEF File No.	10/56/2023-IA.III	Entity name as per PAN	VIZHINJAM INTERNATIONAL SEAPORT LIMITED		

Compliance Reporting Details

Reporting Year	2025
Remarks (if any)	The consolidated Half Yearly Compliance Report (HYCR) for the period October 2024 to March 2025 has also been submitted by email to concerned authorities dated 27th May 2025.
Reporting Period	01 Jun(01 Oct - 31 Mar)

Details of Production and Project Area

Name of Entity / Corporate Office	Vizhinjam International Seaport Limited	
	Project Area as per EC Granted	Actual Project Area in Possession
Private	0	0
Revenue Land	0	0
Forest	0	0
Others	244.17	244.17
Total	244.17	244.17

Production Capacity

Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
--------	--------------	-------	------------	----------	----------------------	---------------------

Conditions		
Specific Conditions		
Sr.No.	Condition Type	Condition Details
1	Statutory compliance	All the recommendations and conditions specified by the Kerala Coastal Zone Management Authority vide letter no. 1540/A2/2022/KCZMA, dated 21.12.2024 shall be implemented.
PPs Submission: Being Complied The recommendations/conditions of KCZMA are being complied with. Compliance to the recommendations/conditions of KCZMA for the period October 2024 to March 2025 is enclosed as Annexure I.		Date: 27/05/2025
2	Statutory compliance	All the recommendations mentioned in the Marine ecology and marine biodiversity management plan prepared by NIO, shall be implemented and the compliance of the recommendations shall be submitted to the concerned IRO, MOEFCC along with the six-monthly EC Compliance Report.
PPs Submission: Agreed to Comply Will be Complied		Date: 27/05/2025
3	Marine/Coastal	The project proponents would also inventories the floral composition of the biota of marine and intertidal biotopes and draw up a detailed marine biodiversity conservation management plan based on possible impacts. The management plan shall be submitted also to the State Biodiversity Board and implemented to their satisfaction during the project cycle.
PPs Submission: Agreed to Comply Marine Biodiversity Study will be carried out through reputed agency regularly, i.e. once in Three (03) years.		Date: 27/05/2025
4	Risk Mitigation and Disaster Management	Crude oil handling both receipt and storage is not being planned and is to be dropped from the proposal. With regard to the storage of Petroleum Products construction of tanks to confirm OISD (Oil Industry Safety Directorate) norms, should comply with the M. B. Lal Committee Report and must include due risk assessment and mitigation plan. With regards to bunkering facilities due care and caution need to be exercised for prevention of spillage and leaks. Compliance with MARPOL guidelines and effective leak handling SOP are to be ensured.
PPs Submission: Agreed to Comply Construction of liquid storage tanks for Petroleum products will confirm OISD (Oil Industry Safety Directorate) norms and the M. B. Lal Committee Report recommendations. The port shall ensure that all ships under operation follow the MARPOL convention regarding leaks and spillages.		Date: 27/05/2025
5	Marine/Coastal	No underwater blasting is permitted.
PPs Submission: Complied No underwater blasting is envisaged.		Date: 27/05/2025
6	WATER QUALITY MONITORING AND PRESERVATION	The Project proponent shall ensure that no creeks or rivers are blocked due to any activities at the project site and free flow of water is maintained.

PPs Submission: Complied There are no creeks or rivers adjacent to the project site.		Date: 27/05/2025
7	AIR QUALITY MONITORING AND PRESERVATION	Effective and efficient pollution control measures like covered conveyors/stacks (IOF/IOC, Gypsum, and other bulk cargo) with fogging/back filters and water sprinkling commencing from ship unloading to stacking to evacuation shall be undertaken. Stack yards shall be bounded by a thick two-tier green belt with proper drains and wind barriers wherever necessary.
PPs Submission: Agreed to Comply Will be complied during operational phase.		Date: 27/05/2025
8	Statutory compliance	All the storage proposed in the CRZ area shall be in line with the CRZ notification, 2019. No storage is allowed other than the products mentioned in the CRZ notification, 2019 in the CRZ area. No mangrove shall be cut or affected due to port construction.
PPs Submission: Agreed to Comply All Cargo storage during the operational phase of the project will be carried out as per the approval obtained under CRZ Notification, 2019. There are no mangroves in the vicinity of the project area.		Date: 27/05/2025
9	Statutory compliance	Construction activity shall be carried out strictly according to the provisions of the CRZ Notification, 2019. No construction work/activity other than those permitted in Coastal Regulation Zone Notification shall be carried out in the Coastal Regulation Zone area.
PPs Submission: Being Complied Construction of the project is being carried out as per the approval obtained under CRZ Notification, 2019.		Date: 27/05/2025
10	Marine/Coastal	Marine ecology shall be monitored regularly also in terms of seaweeds, sea grasses, mudflats, sand dunes, fisheries, echinoderms, shrimps, turtles, corals, coastal vegetation, mangroves, and other marine biodiversity components as part of the management plan. Marine ecology shall be monitored regularly also in terms of all micro, macro, and mega floral and faunal components of marine biodiversity.
PPs Submission: Agreed to Comply Marine ecology study as a part of Marine Biodiversity Study will be carried out through reputed agency regularly, i.e. once in Three (03) years.		Date: 27/05/2025
11	Marine/Coastal	A continuous monitoring programme covering all the seasons on various aspects of the coastal and marine environs needs to be undertaken by a competent organization available in the State or by entrusting to the National Institutes/renowned Universities/accredited Consultant with rich experiences in marine science aspects. Monitoring should include seaweeds, sea grasses, mudflats, sand dunes, fisheries, mangroves, and other marine biodiversity components as part of the management plan.
PPs Submission: Agreed to Comply Marine Biodiversity Study will be carried out through reputed agency regularly, i.e. once in Three (03) years.		Date: 27/05/2025
12	AIR QUALITY MONITORING AND PRESERVATION	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply with prescribed fugitive emission

		standards.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
13	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall submit a monthly summary report of continuous stack emission and air quality monitoring and results of manual stack monitoring and manual monitoring of air quality/fugitive emissions to the Regional Office of MoEFCC, Zonal office of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
14	Marine/Coastal	Periodical study on shoreline changes shall be conducted and mitigation carried out, if necessary. The details shall be submitted along with the six-monthly monitoring Report.
PPs Submission: Agreed to Comply Shoreline change study shall be carried out once in Three (03) years and details of the same will be submitted, as required.		Date: 27/05/2025
15	Marine/Coastal	All the recommendations mentioned in the fish landings survey report prepared by the Central Marine Fisheries Research Institute (CMFRI) shall be implemented and the compliance of the recommendations shall be submitted to the concerned IRO, MOEFCC along with the six-monthly EC compliance Report.
PPs Submission: Agreed to Comply Central Marine Fisheries Research Institute (CMFRI) have conducted a study on estimation of marine fish landings data from the potential impact zones of Vizhinjam International Seaport for the period June 2021 to May 2022. The report (Annexure II) concluded that Fish landings survey recorded an increase of 3.35 percent compared to the total landings reported in 2011. Seasonal and zonal variations of fish catch analysis portrays the higher catches in the direct footprint zone, implying that no significant impacts due to the development of Vizhinjam on the availability of fish resources. The recommendation of the CMFRI report is to carry out the impact assessment during the port's operational phase which will reveal the fish landings unique status and availability. Hence, the CMFRI study will be conducted during the operational phase to examine its effect on the marine habitat, flora, and fauna.		Date: 27/05/2025
16	Marine/Coastal	A continuous monitoring programme covering all the seasons on various aspects of the coastal and marine environs needs to be undertaken by a competent organization available in the State or by entrusting to the National Institutes/renowned Universities/accredited Consultant with rich experiences in marine science aspects. Monitoring should include seaweeds, sea grasses, mudflats, sand dunes, fisheries, mangroves, and other marine biodiversity components as part of the management plan. The monitoring report shall be submitted to the concerned IRO, MoEFCC along with the six-monthly report.
PPs Submission: Agreed to Comply Marine Biodiversity Study will be carried out through reputed agency regularly, i.e. once in Three (03) years.		Date: 27/05/2025
17	AIR QUALITY MONITORING AND PRESERVATION	The cargo handling area shall be provided with an adequate number of high-efficiency dust extraction systems. Loading and unloading areas including all the transfer points should also have efficient dust

		control arrangements. These should be properly maintained and operated.
PPs Submission: Agreed to Comply Will be complied during operational phase.		Date: 27/05/2025
18	Risk Mitigation and Disaster Management	Risk assessment for spill scenarios and Disaster Management Plan as prepared shall be in place in the environment Management cell of the port authority with all SOPs for various scenarios.
PPs Submission: Agreed to Comply Disaster Management Plan including Risk Assessment Scenarios are in place for the site for Phase I of the Port and the same shall be extended during Phase II and III of the project.		Date: 27/05/2025
19	WATER QUALITY MONITORING AND PRESERVATION	PP shall ensure the loading and unloading process shall not cause any spillage in the water and stormwater drains should be built to collect spillage, if any.
PPs Submission: Agreed to Comply Spillage is not envisaged during normal operations. However, in case of accidental spillage, spill management plan is in place at the Vizhinjam port project site and necessary action will be taken to properly collect the spillage and dispose as per the Rules.		Date: 27/05/2025
20	WATER QUALITY MONITORING AND PRESERVATION	Garland drains and collection pits of adequate capacity shall be provided for each stockpile to arrest the runoff in the event of heavy rains and to check the water pollution due to surface runoff and disposed only after treatment.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
21	WASTE MANAGEMENT	Spillage of fuel/engine oil and lubricants from the construction site is a source of organic pollution, which impacts marine life, particularly benthos. This shall be prevented by suitable precautions and also by providing necessary mechanisms to trap the spillage.
PPs Submission: Agreed to Comply Spillage is not envisaged during normal operations. However, in case of accidental spillage, spill management plan is in place at the Vizhinjam port project site and necessary action will be taken to properly collect the spillage and dispose as per the Rules.		Date: 27/05/2025
22	AIR QUALITY MONITORING AND PRESERVATION	Effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around the loading and unloading points and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.
PPs Submission: Being Complied Following precautionary measures are undertaken as environment safeguards: - Regular Water Sprinkling is done on the approach road by water tankers. - Tarpaulin cover is being used during transportation of construction material. - All vehicles coming into the site are under a speed restriction of 20 km/hr. - It is ensured that all vehicles entering the Port have a valid PUC certification. - Greenbelt/Landscaping is being developed - Good housekeeping is being maintained at the site to ensure no impact on air pollution. Ambient Air Quality parameters at the port site are within limits during the compliance period.		Date: 27/05/2025
23	Marine/Coastal	Records of regular dredging shall be maintained with periodic

		survey data.
PPs Submission: Agreed to Comply Will be complied during dredging operations.		Date: 27/05/2025
24	AIR QUALITY MONITORING AND PRESERVATION	<p>The project proponent shall install a system to carry out Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the port area at least at four locations (one within and three outside the port area at an angle of 120 deg. each), covering upwind and downwind directions.</p>
PPs Submission: Being Complied Environment Monitoring is being carried out at the site for Phase I of the Vizhinjam port, the same shall be extended during Phase II and III of the project.		Date: 27/05/2025
25	Marine/Coastal	<p>Sediment analysis of harbor at identified locations shall be analyzed and records for past and present periods shall be maintained.</p>
PPs Submission: Being Complied Environment Monitoring including sediment analysis is being carried out at the site for Phase I of the Vizhinjam port, the same shall be extended during Phase II and III of the project.		Date: 27/05/2025
26	Corporate Environmental Responsibility	<p>Details of budgetary commitments which shall form part of the overall EMP and Social Welfare costs shall be as follows: 1. Budgetary amounts as part of Phase-II and III Port Development A. EMP budgeted for the project - Rs. 84 Crores B. Amount budgeted as outcome of Public Hearing Commitments (breakup is attached which is enhanced by Rs. 10 Crores for the Health Sector) which was earlier Rs. 100 Cr. - Rs. 110 Crores 2. Associated Social Welfare Measures under Various Government Initiatives C. New Fishing Harbour at Kottapuram - Rs. 257 Crores D. Adoption of Existing Fishing Harbour, under PMMSY - Rs. 73 Crores E. Seafood Park - Rs. 80 Crores F. Additional Anticipated Livelihood Compensation - Rs. 50 Crores</p>
PPs Submission: Agreed to Comply Noted for compliance.		Date: 27/05/2025
27	Marine/Coastal	<p>Sediment concentration should be monitored fortnightly at the source and disposal location of dredging while dredging.</p>
PPs Submission: Agreed to Comply There is no dredge disposal envisaged as all the dredged material will be utilized for reclamation of berths.		Date: 27/05/2025
28	WASTE MANAGEMENT	<p>Necessary arrangements for the treatment of the effluents and solid wastes/ facilitation of reception facilities under MARPOL must be made and it must be ensured that they conform to the standards laid down by the competent authorities including the Central or State Pollution Control Board and under the Environment (Protection) Act, 1986. The provisions of Solid Waste Management Rules, 2016. E-Waste Management Rules, 2016, and Plastic Waste Management Rules, 2016 shall be complied with.</p>
PPs Submission: Agreed to Comply Currently project is under construction. This shall be complied during operational phase.		Date: 27/05/2025

29	Risk Mitigation and Disaster Management	All the recommendations mentioned in the rapid risk assessment report, disaster management plan, and safety guidelines shall be implemented.
PPs Submission: Agreed to Comply Noted for compliance.		Date: 27/05/2025
30	PUBLIC HEARING	PP shall implement a grievance redressal system for the resolution of complaints raised during public hearing and inform the public about the action taken on their grievances.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
31	MISCELLANEOUS	This Environmental clearance and CRZ clearance is granted subject to final outcome of Honorable Supreme Court of India, Honorable High Court, Honorable NGT and any other Court of Law, if any, as may be applicable to this project.
PPs Submission: Agreed to Comply Noted.		Date: 27/05/2025
General Conditions		
Sr.No.	Condition Type	Condition Details
1	WATER QUALITY MONITORING AND PRESERVATION	The Project proponent shall ensure that no creeks or rivers are blocked due to any activities at the project site and free flow of water is maintained.
PPs Submission: Agreed to Comply There are no creeks or rivers adjacent to the project site.		Date: 27/05/2025
2	WATER QUALITY MONITORING AND PRESERVATION	No ships docking at the proposed project site will discharge its on-board waste water untreated in to the estuary/ channel. All such wastewater load will be diverted to the proposed Effluent Treatment Plant of the project site.
PPs Submission: Agreed to Comply Currently project is under construction. This shall be complied during operational phase.		Date: 27/05/2025
3	WASTE MANAGEMENT	Measures should be taken to contain, control and recover the accidental spills of fuel and cargo handle.
PPs Submission: Agreed to Comply Spillage is not envisaged during normal operations. However, in case of accidental spillage, necessary action will be taken to properly collect the spillage and dispose as per the Rules.		Date: 27/05/2025
4	WASTE MANAGEMENT	A certificate from the competent authority for discharging treated effluent/ untreated effluents into the Public sewer/ disposal/drainage systems along with the final disposal point should be obtained.
PPs Submission: Being Complied All the wastewater generated from the port is of the nature of sewage and is being collected and treated in the STP and reused for watering of horticulture/landscape developments in the port.		Date: 27/05/2025

5	Statutory compliance	Construction activity shall be carried out strictly according to the provisions of CRZ Notification, 2011 and the State Coastal Zone Management Plan as drawn up by the State Government. No construction work other than those permitted in Coastal Regulation Zone Notification shall be carried out in Coastal Regulation Zone area.
PPs Submission: Agreed to Comply Construction of the project is being carried out as per the approval obtained under CRZ Notification, 2019 the latest in force.		Date: 27/05/2025
6	Statutory compliance	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
PPs Submission: Complied VISL has obtained Power adequacy certificate from KSEB vide No. CETS/AE4/E11095/VISL/E19388/23-24/1685 dated 19.04.2024. A copy of the same is enclosed as Annexure III.		Date: 27/05/2025
7	ENERGY PRESERVATION MEASURES	Provide LED lights in offices and project areas.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
8	Statutory compliance	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Coast Guard, Civil Aviation Department shall be obtained, as applicable by project proponents from the respective competent authorities.
PPs Submission: Being Complied All the construction activities will be carried out as per existing Central/State rules. Necessary permissions under CRZ Notification, 2019 have been obtained. Further, necessary approvals from concerned Statutory Departments/Agencies will be obtained for the construction designs/drawings as applicable.		Date: 27/05/2025
9	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the project area at least at four locations, covering upwind and downwind directions.
PPs Submission: Being Complied Environment Monitoring is being carried out at the site for Phase I of the Vizhinjam port, the same shall be extended during Phase II and III of the project.		Date: 27/05/2025
10	AIR QUALITY MONITORING AND PRESERVATION	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed emission standards.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
11	WATER QUALITY MONITORING AND PRESERVATION	Total fresh water use shall not exceed the proposed requirement as provided in the project details. Prior permission from competent authority shall be obtained for use of fresh water.

PPs Submission: Agreed to Comply Total operational water requirement for the Master Plan (all phases) of the port is 1000 KLD which will be met from the available natural water source of Vellayani Lake and from the public water supply system of Thiruvananthapuram District. 1.00 MLD water has been allotted to Vizhinjam Port through Kerala Water Authority (KWA) supply schemes. A certificate issued by KWA for adequacy of water supply is provided as Annexure IV. Total fresh water use will not exceed the proposed requirement. Prior permission from KWA shall be obtained for additional use of fresh water if required.		Date: 27/05/2025
12	WASTE MANAGEMENT	Sewage Treatment Plant shall be provided to treat the wastewater generated from the project. Treated water shall be reused for horticulture, flushing, backwash, HVAC purposes and dust suppression.
PPs Submission: Agreed to Comply A Provision for installing Sewage Treatment Plant (STP) facility of adequate capacity in phased manner in accordance with the CRZ Notification will be implemented.		Date: 27/05/2025
13	AIR QUALITY MONITORING AND PRESERVATION	Shrouding shall be carried out in the work site enclosing the dock/proposed facility area. This will act as dust curtain as well achieving zero dust discharge from the site. These curtain or shroud will be immensely effective in restricting disturbance from wind in affecting the dry dock operations, preventing waste dispersion, improving working conditions through provision of shade for the workers.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
14	AIR QUALITY MONITORING AND PRESERVATION	Dust collectors shall be deployed in all areas where blasting (surface cleaning) and painting operations are to be carried out, supplemented by stacks for effective dispersion.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
15	AIR QUALITY MONITORING AND PRESERVATION	The Vessels shall comply the emission norms prescribed from time to time.
PPs Submission: Agreed to Comply Currently project is under construction. This shall be complied during operational phase.		Date: 27/05/2025
16	AIR QUALITY MONITORING AND PRESERVATION	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low Sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
17	MISCELLANEOUS	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be

		based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	
PPs Submission: Agreed to Comply A road traffic study and action plan has been carried out by National Transportation Planning and Research Centre (NATPAC). The study aims to assess the traffic impact of proposed Vizhinjam International Sea Port and surrounding hinterland area for a 5 km radius. This study explores the possible impacts that the proposed Vizhinjam Port development would generate on the transportation network in the hinterland area and to suggest suitable mitigation measures to achieve a sustainable development an action plan has been prepared. This plan shall be submitted to the respective departments of the State Government for their validation and implementation.			Date: 27/05/2025
18	WATER QUALITY MONITORING AND PRESERVATION	Appropriate measures must be taken while undertaking digging activities to avoid any likely degradation of water quality. Silt curtains shall be used to contain the spreading of suspended sediment during dredging within the dredging area.	
PPs Submission: Agreed to Comply Will be complied.			Date: 27/05/2025
19	WASTE MANAGEMENT	The solid wastes shall be managed and disposed as per the norms of the Solid Waste Management Rules, 2016.	
PPs Submission: Being Complied Solid waste is being properly collected, segregated, and disposed of in line with the Solid Waste Management Rules 2016, as amended.			Date: 27/05/2025
20	WASTE MANAGEMENT	Spillage of fuel / engine oil and lubricants from the construction site are a source of organic pollution which impacts marine life. This shall be prevented by suitable precautions and also by providing necessary mechanisms to trap the spillage.	
PPs Submission: Agreed to Comply Spillage is not envisaged. However, in case of accidental spillage, necessary action will be taken to properly collect the spillage and dispose as per the Rules.			Date: 27/05/2025
21	Marine/Coastal	Shoreline should not be disturbed due to dumping. Periodical study on shore line changes shall be conducted and mitigation carried out, if necessary. The details shall be submitted along with the six monthly monitoring reports.	
PPs Submission: Being Complied AVPPL engaged NIOT to study the long-term shoreline change monitoring based on high resolution satellite imageries, beach profile analysis and other related measurements supported with ground truthing. Annual Reports on Shoreline Change Analysis of Vizhinjam Coast Using Beach Profiles and Satellite Images had been prepared for the study periods: Feb 2015 to Sep 2018, Oct 2018 to Sep 2019, Oct 2019 to Sep 2020, Oct 2020 to Sep 2021, Oct 2021 to Sep 2022 and Oct 2022 to Sep 2023. These studies on the Shoreline Change Analysis of Vizhinjam Coast have not observed any shoreline change erosion occurring within 10 km due to the Vizhinjam port project. The NIOT Annual Reports are uploaded on to the KCZMA website. The link for the last Annual Report on the KCZMA website is provided below: (https://keralaczma.gov.in/index.php/reports/annual-reports).			Date: 27/05/2025
22	WASTE MANAGEMENT	A certificate from the competent authority handling municipal solid	

		wastes should be obtained, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
23	Marine/Coastal	Marine ecology shall be monitored regularly also in terms of sea weeds, sea grasses, mudflats, sand dunes, fisheries, echinoderms, shrimps, turtles, corals, coastal vegetation, mangroves and other marine biodiversity components including all micro, macro and mega floral and faunal components of marine biodiversity.
PPs Submission: Agreed to Comply Marine ecology study as a part of Marine Biodiversity Study will be carried out through reputed agency regularly, i.e. once in Three (03) years.		Date: 27/05/2025
24	WATER QUALITY MONITORING AND PRESERVATION	No diversion of the natural course of the river shall be made without prior permission from the Ministry of Water resources.
PPs Submission: Complied There is no river adjacent to the project site.		Date: 27/05/2025
25	Marine/Coastal	All the erosion control measures shall be taken at water front facilities. Earth protection work shall be carried out to avoid erosion of soil from the shoreline/boundary line from the land area into the marine water body.
PPs Submission: Agreed to Comply Based on the shoreline monitoring data, maintenance dredged material, if any, shall be utilized for appropriate mitigation measures.		Date: 27/05/2025
26	Noise Monitoring & Prevention	Noise from vehicles, power machinery and equipment on-site should not exceed the prescribed limit. Equipment should be regularly serviced. Attention should also be given to muffler maintenance and enclosure of noisy equipments.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
27	Noise Monitoring & Prevention	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.
PPs Submission: Being Complied Environment Monitoring, including noise monitoring, is being carried out at the site for Phase I of the Vizhinjam port, the same shall be extended during Phase II and III of the project. The noise levels at the port site are within the limits as per the prescribed standards during the compliance period.		Date: 27/05/2025
28	Noise Monitoring & Prevention	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
PPs Submission: Being Complied Environment Monitoring, including noise monitoring, is being carried out at the site for Phase I of the Vizhinjam port, the same shall be extended during Phase II and III of the project.		Date: 27/05/2025

29	Marine/Coastal	Dredged material shall be disposed safely in the designated areas.
PPs Submission: Agreed to Comply There is no dredge disposal envisaged as all the dredged material will be utilized for reclamation of berths.		Date: 27/05/2025
30	WASTE MANAGEMENT	Necessary arrangements for the treatment of the effluents and solid wastes must be made and it must be ensured that they conform to the standards laid down by the competent authorities including the Central or State Pollution Control Board and under the Environment (Protection) Act, 1986.
PPs Submission: Being Complied Sewage Treatment Plant (STP) facility of 50 KLD capacity in accordance with the CRZ Notification has been developed as a part of Phase I of the port project and will be further augmented for future phase expansion (Phase II and III).		Date: 27/05/2025
31	WASTE MANAGEMENT	Oil spill contingency plan shall be prepared and part of DMP to tackle emergencies. The equipment and recovery of oil from a spill would be assessed. Guidelines given in MARPOL and Shipping Acts for oil spill management would be followed. Mechanism for integration of terminals oil contingency plan with the overall area contingency plan under the co-ordination of Coast should be covered.
PPs Submission: Being Complied AVPPL updated the Oil Spill Disaster Contingency Plan (OSDCP) after making necessary amendments in accordance with the observations issued and resubmitted to the same to Indian Coast Guard (ICG). Awaiting formal approval of the same.		Date: 27/05/2025
32	WASTE MANAGEMENT	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
33	Marine/Coastal	While carrying out dredging, an independent monitoring shall be carried out through a Government Agency/Institute to assess the impact and necessary measures shall be taken on priority basis if any adverse impact is observed.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
34	Marine/Coastal	The project proponent shall ensure that water traffic does not impact the aquatic wildlife sanctuaries that fall along the stretch of the river.
PPs Submission: Complied Not Applicable. There is no river adjacent to the project site.		Date: 27/05/2025
35	Noise Monitoring & Prevention	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025

36	ENERGY PRESERVATION MEASURES	Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
37	WASTE MANAGEMENT	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
38	Marine/Coastal	Dredging, etc shall be carried out in the confined manner to reduce the impacts on marine environment.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
39	Marine/Coastal	A detailed marine biodiversity management plan shall be prepared through the NIO or any other institute of repute on marine, brackish water and fresh water ecology and biodiversity and submitted to and implemented to the satisfaction of the State Biodiversity Board and the CRZ authority. The report shall be based on a study of the impact of the project activities on the intertidal biotopes, corals and coral communities, molluscs, sea grasses, sea weeds, sub-tidal habitats, fishes, other marine and aquatic micro, macro and mega flora and fauna including benthos, plankton, turtles, birds etc. as also the productivity. The data collection and impact assessment shall be as per standards survey methods and include underwater photography.
PPs Submission: Agreed to Comply Marine ecology study as a part of Marine Biodiversity Study will be carried out through reputed agency regularly, i.e. once in Three (03) years.		Date: 27/05/2025
40	GREENBELT	Green belt shall be developed in area as provided in project details with a native tree species in accordance with CPCB guidelines.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
41	GREENBELT	Top soil shall be separately stored and used in the development of green belt.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
42	Marine/Coastal	Dredging shall not be carried out during the fish breeding and spawning seasons.
PPs Submission: Being Complied Dredging is not carried during fish breeding and spawning seasons.		Date: 27/05/2025
43	Marine/Coastal	The dredging schedule shall be so planned that the turbidity developed is dispersed soon enough to prevent any stress on the fish population.

PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
44	Human Health Environment	Workers shall be strictly enforced to wear personal protective equipments like dust mask, ear muffs or ear plugs, whenever and wherever necessary/ required. Special visco-elastic gloves will be used by labour exposed to hazards from vibration.
PPs Submission: Being Complied All employees are provided with relevant Personal Protective Equipment (PPEs) like Helmets, Shoes, Fluorescent Reflective Jackets, etc.		Date: 27/05/2025
45	Human Health Environment	The work space shall be maintained as per international standards for occupational health and safety with provision of fresh air respirators, blowers, and fans to prevent any accumulation and inhalation of undesirable levels of pollutants including VOCs.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
46	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
PPs Submission: Complied Due to space constraints within the project site there are no temporary housing planned for labourers. It will be ensured that construction workers who are staying outside in the contractor rented houses/apartments are provided with necessary infrastructure facilities.		Date: 27/05/2025
47	WASTE MANAGEMENT	In case of repair of any old vessels, excessive care shall be taken while handling Asbestos and Freon gas. Besides, fully enclosed covering should be provided for the temporary storage of asbestos materials at site before disposal to CTSDf.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
48	Human Health Environment	Safety training shall be given to all workers specific to their work area and every worker and employee will be engaged in fire hazard awareness training and mock drills which will be conducted regularly. All standard safety and occupational hazard measures shall be implemented and monitored by the concerned officials to prevent the occurrence of untoward incidents/ accidents.
PPs Submission: Being Complied Regular safety trainings are provided to all workers, employees and other staff.		Date: 27/05/2025
49	MISCELLANEOUS	Self environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
50	Risk Mitigation and Disaster	Emergency preparedness plan based on the Hazard identification

	Management	and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
51	Human Health Environment	Occupational health surveillance of the workers shall be done on a regular basis.
PPs Submission: Agreed to Comply Will be complied.		Date: 27/05/2025
52	MISCELLANEOUS	The company shall have a well laid down environmental policy duly approved by the Board of Directors.
